

The BioProcessing Asia Conference Series

– where East meets West and Academia meets Industry

The BioProcessing Asia Conference Series is a non-commercial, not-for-profit platform established to advance the contribution of bioprocessing sciences to the provision of effective biopharmaceutical products and medical interventions in the Asian region.

The Conferences are held every 2 years and attract key opinion leaders and international experts in the areas of research, development and manufacturing of biopharmaceuticals, vaccines and blood plasma products.

BIOPROCESSING ASIA CONFERENCES

- BPA 2014, 3–7 November, Langkawi, Malaysia
- BPA 2016, 5–8 December, Phuket, Thailand

On each occasion these Conferences have attracted over 100 biopharmaceutical experts from at least 16 Asian countries, including China, South Korea, Singapore, Malaysia, India and Japan as well as Australia and New Zealand. US participants account for ca. 15% and Europeans for 25%. Over 80 different organisations have participated in the BioProcessing Asia Conferences to date.

Keynote speakers have included Prof Jane Cardosa, former Advisor to the Gates Foundation, Prof Charles Cooney from MIT, Arun Chandavarkar, CEO at Biocon Ltd., Prof Nigel Titchener-Hooker, UCL and Jan Bult, Chairman of the Plasma Protein Therapeutics Association.

Product oriented sessions cover biosimilars, recombinant products and monoclonal antibodies, vaccines and blood plasma products. Technology sessions address both emerging process developments, new advances in unit operations and facility design and operation.

Past presentations from both academia and industry have demonstrated best-in-class advances and have been rated as Excellent, Very Good and Good by essentially all attendees.

BPA 2018 DATES & VENUE

- BioProcessing Asia 2018 will be held at the Langkawi International Conference Centre, Malaysia from 12–15 November 2018.

Organizing committee

John Curling (Chair), JCC AB, Sweden.

Neil Goss, NHG Consulting, Australia

Mats Gruvegård, GE Healthcare, Sweden.

Günter Jagschies, GE Healthcare, Germany

Scientific advisory committee

A predominantly Asian Scientific Advisory Committee is being formed and will be announced in December 2017. Committee members will hold senior positions in academia and the biomanufacturing industry and will be well known for their contributions to biopharmaceutical development in the Asian region. Members will also serve as Scientific Session chairs and be active in the formation of the Conference Programme.

SPONSORSHIP OPPORTUNITIES

GE Healthcare Life Sciences has a long-standing history of supporting non-commercial, not-for-profit conferences and is the Principal Sponsor of the BPA series.

Sponsorship opportunities are open to the biopharmaceutical, vaccine and blood plasma industries and industry organizations.
